

SupplierGATEWAY SSO (SP-Initiated)

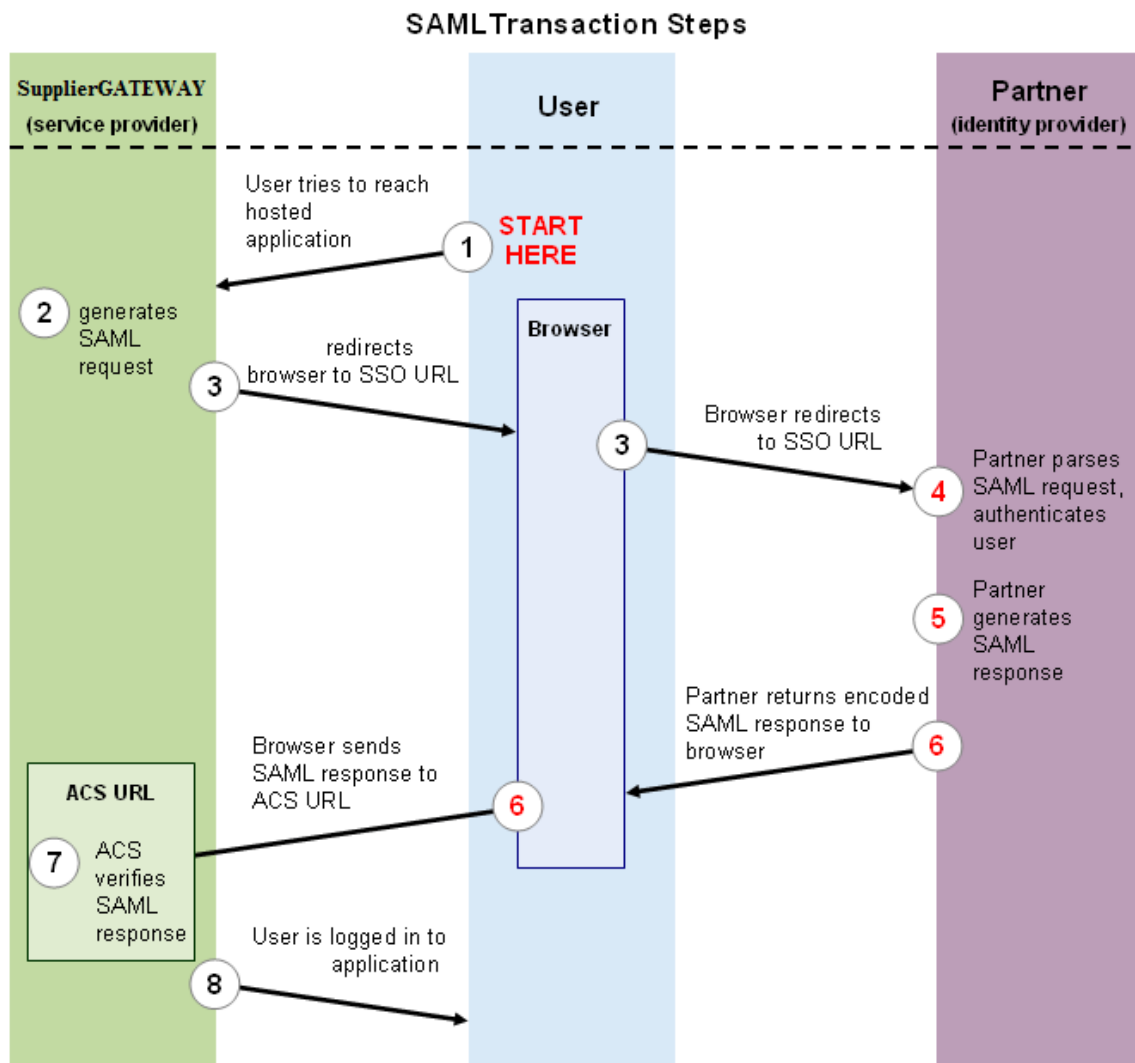

Figure 1: SAML Transaction Steps

The solution outline /procedures in brief are as follows:

Protocol – SAML 2.0

CASE: EMPLOYEE LOGIN

SupplierGATEWAY will require the following SSO assertion response from your IdP provider:

- UniqueID = (User Account Unique Identifier - example: employee number)
- Email = email account associated with this user
- UserType = **EMPLOYEE**
- GivenName = First Name
- SurName = Last Name

Note: After successful authentication against IdP provider, an account will be created in SupplierGATEWAY and mapped to the UniqueID provided from Assertion response and granting user to SupplierGATEWAY.

Service Provider - EntityID

The Service provider entityid is your base portal url in suppliergateway. If your portal in SupplierGATEWAY is “<https://myexample.suppliergateway.com>” then service provider entityid will be “**<https://myexample.suppliergateway.com>**”.

- QA = [https://\[YourSGPORTAL\].suppliergateway-qa.com](https://[YourSGPORTAL].suppliergateway-qa.com)
- Prod = [https://\[YourSGPORTAL\].suppliergateway.com](https://[YourSGPORTAL].suppliergateway.com)

Note: [YourSGPortal] = this is a custom portal created for you.

Service Provider Consumer Assertion URLs

- QA = [https://\[PORTAL\].suppliergateway-qa.com/SSO/AssertionConsumerService.aspx](https://[PORTAL].suppliergateway-qa.com/SSO/AssertionConsumerService.aspx)
- Prod = [https://\[PORTAL\].suppliergateway.com/SSO/AssertionConsumerService.aspx](https://[PORTAL].suppliergateway.com/SSO/AssertionConsumerService.aspx)

SSO Management

Note: Setup and retrieval of metadata is from the Manage SSO Settings interface in the Administrative Settings page (see below).

Admin Site Manager

Single Sign On Information
Let's get your Single Sign On set up

Enforce SG Account Required for Login

Enforce SG Account Status

Please select a provider type

Please select

Please enter your Sign On URL - this is the url to your SSO Login endpoint e.g., https://sso.connect.pingidentity.com/sso/.....

Enter Sign On Url

Please enter your Sign Off URL

Enter Sign Off Url

Please paste your Identity Provider Certificate here in X509 format - it will be a large encrypted string of numbers and letters.

Enter Identity Provider Certificate

Once you save your data, you will be able to download the SupplierGATEWAY SSO Metadata.

Save

Support

Figure 2: Manage SSO Settings Console
